

Name	
Veterinarian's name	
Date of visit	OSHP #

One copy of this assessment of biosecurity status form is to be retained by the owner, one is to be retained by the veterinarian evaluator, and one is to be kept at the Ontario Sheep Farmers office as evidence of evaluation. All information is strictly confidential. Not to be used for advertising.

Biosecurity assessment completed

**Health status of flock (check all that apply)**

- Canadian Verified Sheep Program – enrolled
- Ontario Maedi Visna Flock Status Program (OMVFSP)
  - OMVFSP biosecurity requirements met (circle one) Yes \_\_\_\_\_ No \_\_\_\_\_
- Scrapie Canada Certification Program Pathway \_\_\_\_\_ Level \_\_\_\_\_
- Certified organic

Risk from animals	Low	Moderate	High	Risk from people and equipment	Low	Moderate	High
Direct contact with livestock				Limited access to farm			
Introduction of new genetics				Visitors to farm			
Isolation and animal flow				Management of veterinarian			
Indirect contact with livestock				Feed and water			
Management of deadstock				Veterinary equipment			
Management of manure				Shearing			
Risk from non-food animals				Livestock vehicles			
<b>Total score for risk from animals (x2)</b>	/28			<b>Total score for risk from people and equipment</b>	/14		

<b>Low risk</b>	Opportunity for introduction of disease and/or spread of disease present in the flock is minimal to absent.
<b>Moderate risk</b>	Producer has instituted some biosecurity precautions that reduce but do not absolutely prevent introduction and/or spread of disease within the flock.
<b>High risk</b>	There are minimal to no biosecurity precautions in place to prevent introduction and/or spread of disease.

**Optional** If the producer wishes to score level of biosecurity, assign each category a score of "0" for Low; "1" for Moderate or "2" for High. Risk scores from animals are then doubled. Highest possible score is 28 for risk from animals and 14 for risk from people and equipment for a total of 42. Lowest possible score is 0. This is optional and is only to help producers rank their flock's level of biosecurity and to help motivate improvements.

**Biosecurity Score** \_\_\_\_\_ out of 42

Specific recommendations for improvement are to be written on the Biosecurity Assessment Form.
